- Strobe light

PAINT

- Standard PPG other than white
- Metallic
- Multi-color
- Striping

SCALES

- Vulcan
- Custom installation

The contoured blade follows the continuous uniform side walls from compactor through the body smoothly and completely clean.

The blade travels just above the body floor on cam followers to reduce floor wear. T1 strips hold commodity up, which prevents it from going under the blade and also reduces floor wear.

Proudly built in the USA
